

Nobiqo & Co.

Turn disruption planning into assigned, testable actions.

Decision brief · 2026-09-20

The offline continuity tool plus phase-specific tasks, suggested responsible roles and exercise acceptance criteria.

PUBLIC SAMPLE: limited public-source evidence

See the evidence, its limits and the next action.

What completion looks like

An exercised continuity plan and tracked corrective actions, not a pre-certified plan.

Evidence still required

Site facts, nominated people, approved procedures and results of an actual exercise.

Assign and exercise: 3

First records to review

All actions are in the workbook, CSV and offline workspace. The order is an operational review queue, not a profitability or win-probability forecast.

Power interruption / prepare

Assign and exercise

List essential loads and acceptable outage time with the responsible engineer. Verify backup arrangements and maintenance evidence.

List essential loads and acceptable outage time with the responsible engineer. Verify backup arrangements and maintenance evidence. Suggested owner: Facilities lead; nominate the actual responsible person.

Property facts, approved procedure, nominated owner and exercise result.

Power interruption / respond

Assign and exercise

Ask the responsible team to apply the approved outage procedure; isolate unsafe work and follow official instructions.

Ask the responsible team to apply the approved outage procedure; isolate unsafe work and follow official instructions. Suggested owner: Incident lead; nominate the actual responsible person.

Property facts, approved procedure, nominated owner and exercise result.
