

Nobiqo & Co.

Match a material to the right care instruction before treatment.

Decision brief · 2026-09-20

Product-specific care decisions, restrictions and missing-identification tasks.

PUBLIC SAMPLE: limited public-source evidence

See the evidence, its limits and the next action.

What completion looks like

A traceable material-to-instruction match; unidentified materials stay on hold.

Evidence still required

Exact installed model, finish and the current manufacturer instruction.

Confirm asset match before care: 3

First records to review

All actions are in the workbook, CSV and offline workspace. The order is an operational review queue, not a profitability or win-probability forecast.

DEDON / DEDON Fiber

Confirm asset match before care

Use gentle cleaning with a soft cloth and warm water. Restriction: Solvents and alcohol are unsuitable for the fiber.

Match the installed product and finish to Named DEDON woven fiber. Apply only the current matching manufacturer instruction; record its reference against the asset.

Exact SKU, finish, current manufacturer document and compatibility of all components.

DEDON / Powder-coated aluminium

Confirm asset match before care

Use lukewarm water; rinse after suitable detergent. Restriction: Avoid abrasives and pressure washing the frame.

Match the installed product and finish to Exposed powder-coated DEDON frames. Apply only the current matching manufacturer instruction; record its reference against the asset.

Exact SKU, finish, current manufacturer document and compatibility of all components.
