

Separate reconstruction needs from work your business can pursue.

Decision brief · 2026-09-20

Project-stage triage, financing context, procurement discovery routes and participation gates.
PUBLIC SAMPLE: limited public-source evidence
See the evidence, its limits and the next action.

What completion looks like

A reconstruction-market action queue; unfunded/watch-only markets remain separate.

Evidence still required

Current tender documents, transaction eligibility, local delivery capacity and operating conditions.

Find procurement plan: 3 / Watch only: 1

Queue order: review tender notices first, then awarded-contractor/partner research and procurement-plan discovery. Within each class, listed deadlines sort earliest first. This is a review rule, not a recommendation to bid or a win-probability estimate.

First records to review

All actions are in the workbook, CSV and offline workspace. The order is an operational review queue, not a profitability or win-probability forecast.

AF Irrigation Restoration and Development Project

Find procurement plan

Afghanistan / Ministry of Energy and Water (MEW) / No open tender or current supplier eligibility established

Open the project procurement tab, identify the executing agency and find the package-level notice. Financing is not remaining available contract value. Route: This financed project: inspect its procurement documents and executing agency.

Current package; purchasing authority; mandatory requirements; your delivery capacity; competing suppliers and comparable costs.

Iran

Watch only

No funded open Iranian reconstruction procurement was established in the purchased edition. Keep separate from actionable opportunities. Require a named funded package and current participation review before advancing.

Funding, actual package, lawful participation and safe delivery.
